

Keeper Security G2 Competitive Comparison Report

Keeper is the leading cybersecurity platform for preventing password-related data breaches and cyberthreats. This report is based on ratings and reviews from real G2 users.

Keeper vs. Top Competitors: User Satisfaction Ratings

See how Keeper wins in customer satisfaction based on the ratings in the below G2 categories.

G2 Grid: Keeper Listed as a Leader

G2 scores products and vendors based on reviews gathered from the user community, as well as data aggregated from online sources and social networks. Together, these scores are mapped on the G2 Grid, which you can use to compare products. As seen on the grid, Keeper is currently rated as a “Leader,” scoring highly in both market presence and satisfaction.

Keeper User Reviews & Testimonials

See what G2 users have to say about their experience with Keeper.

Best password manager on the market

“Keeper was the first password manager I could find that supported the U2F hardware keys that we use and this was a non-negotiable requirement at the time and still is. The support is really excellent and above expectations - On all my questions and concerns, I have received a reply within an hour and I am situated in Southern Africa. Last but not least: Top marks for the best value for your...”

Cyril E.
Senior Software Developer at VOSS

Using Keeper for multiple years now

“The best part of Keeper is the integration with Chrome and other browsers. I can easily set up new accounts at a moment’s notice without needing to use an insecure temporary password that gets lost or that is easily hacked. This allows me to seamlessly continue on with what I am doing while knowing that the account I just created is secure and doesn’t compromise my other accounts.”

Wes T.
Senior Lecturer and Director of the Rensselaer Center for Open Source at Rensselaer Polytechnic Institute

Excellent Secure App

“I like the folders - I can have a title and keep several records relating to the same thing in one place. I love this app, I honestly couldn’t do without it in an age where passwords and logins are everything.”

Elizabeth W.
Chassis Quality Manager at Jaguar Land Rover

Couldn’t get by without it!

“Best password manager & data vault available. I’ve been a user for 10 years & can’t imagine not having Keeper. With over 250+ complex logins, I’m able to store it all securely & synced to my devices/PC’s effortlessly. It’s easy to use & gives the user many options how to enter ID’s & passwords. Instead of trying to remember 250+ non complex passwords, I only have to remember 1 very complex...”

J.C. R.
Video Network Engineer with SAIC @ NIH

Simple and Secure

“I am the Data and Systems Manager for my firm. I am also a mother, a wife, and the daughter of aging parents. Through the course of a week I touch a LOT of systems, I remember remembers every single one of my credentials. I love the way I can structure the accounts into folders. House - Parents - Work - Kid1 - Kid2. It really makes it easy to keep things organized, and Global Search makes...”
